We use world's renowned softwares (**Penelope, Textronic Design Dobby, WGSN etc.**)
for Fabric designing.

LABORATORY

A quality lab is equipped to conduct all types of testing by Global testing standards.
A complete range of testing equipment from **James Heal UK** was installed in the Lab. Some
properties for which fabric will be tested in-house are **tear & tensile strength,**
seam slippage, piling, abrasion, color fastness to wash, water, sweat, crocking, stretch & durability
press rating, color fastness to light, etc.
